Promotion Highlights

For years we have been publishing a monthly promotion flyer. About a year ago we started making changes to provide you with a better tool. During this time period we have tried publishing it in a variety of ways. To our surprise it was the good old one month version that was most successful. In addition to the obvious changes, we have been making changes behind the scenes. We have been encouraging our vendors to go deeper on their discounts with incentives and discount matching. We believe this is the best way to drive sales on all levels.

Each month we try to include a variety of products appropriate for the season and any holidays or special events during the month. The March promotion focuses on Ash Wednesday and St. Patrick's Day. In addition to those promotions there are few other noteworthy promotions we would like to bring to your attention:

At 25% off March is the perfect time to start substituting the old stand by with something fresh and new from Tribeca. See page 13 of the March promotion book.

Amber Valley – Imported from England. Even though this promotion is not included on the St. Patrick's Day page Amber Valley does have some options that would be appropriate. DIE KASEMACHER OF AUSTRIA

Creates the Perfect Cheese-Filled Vegetable

Die Kasemacher is known for turning milk of goat and sheep into luscious, creamy, fresh cheese sensations. Though the cheese by itself is delightfully smooth and rich with flavor, Die Kasemacher (the cheese maker) didn't stop there. They searched for the perfect container in which to present the cheese. The container? Tiny perfect vegetables hollowed out and filled with this mouthwatering fresh, milky cheese. The collection includes olives and hot peppers and tomatoes and artichokes and onions and piquant-sweet pepers...... ...and now, gorgeous little scalloped, bright yellow, summer squash called Yellowbells (Patti Pans). The squash are lightly marinated. This little bit of tartness is a perfect complement to the tasty cheese stuffing. The stuffed baby squash are then placed into their jars and finally, submerged into a healthy canola oil. The vegetables add flair to so many dishes, antipasto and appetizer platters. The array of colors within the vegetable choices is striking, adding pleasure for the eye as well as the palate. The vegetables have an average life of two months and must be kept refrigerated.

The Bakers Bench by Jack Jacobson

Spring is soon to be upon us and with spring comes off the layers of warm attire, causing some of us to notice the layers we have put on to combat the elements. Therefore it seems to be a good idea to look at healthier, fresher and more wholesome desserts, such as fresh fruit tarts, and the use of fresh fruit in the presentation of other desserts. To help in this endeavor I would like to cover the gamut on Glazes.

Puratos has been an originator and innovator in this field for over a half of a century, and has been recognized world wide as a leader in this area. With well known products such as Harmony and Miroir, and revolutionary products like Sublimo there is no question of confidence when using any of these products.

Harmony has been a staple for many years, and is found in some of the best bakeries and pastry shops throughout the world. This is a product that requires heating to be activated, and comes in ready to use or concentrated forms also in neutral or apricot. This is a great versatile glaze for use in fresh fruit tarts, cakes topped with fresh fruit, puff pastries of all kinds, and your basic sweet roll and coffee cake.

There are many benefits to using glaze. The most obvious being the beautiful appearance that your product takes on. Glaze also locks in fruit's color, taste and freshness which helps retain moisture and keeps your product looking fresher longer.

Glaze is easy to apply with either a pastry brush or through a sprayer system, after it sets there is no problem in slicing the product cleanly and neatly.

When it comes to innovation Puratos is always up near the top. Sublimo is the newest Glaze on the market. Its uniqueness is that it is the first true Ready to Use Glaze product of its kind. No heat is needed. This glaze is designed to be applied right out of the box and will set to a sliceable gel that won't run, leak or absorb into the dough. Sublimo comes in neutral and apricot, and is packed in a #26.45 bag in a box.

The line includes Miroir which is a glaze for mousses, bavarois and other delicate applications, in a ready to use form. Not to be left out are the basic standard glazes, such as the Strawberry and Donut Glazes. The Strawberry is a glaze designed specifically for strawberries, for it is red color and strawberry flavor. The Donut glazes are just that, transparent and quick setting, to be applied to donuts while warm for best results. Again to keep the finished product fresher longer and to give the nicest look to a great product, these glazes serve the needs of the best Bakers/Pastry Chefs in the industry.

If there are any questions about glazes, or any of the Puratos line please ask your European Imports Ltd. sales representative or call Jack Jacobson at 630-776-1634.

Soy Sauce Innovation

The conventional taste and appearance of soy sauce is changing with White Soy Sauce Food Company's line of White Tamari and White Golden Tamari sauces. White soy sauces have traditionally been substituted for dark soy sauces to avoid the darkening in color of soups and other dishes. These all natural sauces are golden in color and also lack the overwhelming flavor of dark soy sauce. With a balanced sweet and salty taste, they are superb with sushi, tofu, vegetables or seafood. They can also be used as a marinade or sprayed on your favorite dishes to add an extra boost of flavor.
